DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Sunday, 21 March 2021 at 05:20 local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will be Low across much of the UK today, albeit with a few pockets of Moderate pollution possible in the Northern Isles.

Tomorrow: Air pollution levels are expected to remain Low on Monday. However higher levels may develop around urban areas in England and Wales, due to light winds allowing the build-up of locally emitted pollution.

Outlook: Weather conditions are expected to be more unsettled and occasionally windy, leading to Low levels of air pollution later in the week.
